

Lintel Technologies Pvt. Ltd.

Leading Edge Communication for your Business

Step up to a new level of business with Lintel through integrated Hardware, Software and Telecommunication Solutions to meet the challenges of today. Lintel solutions provide companies at all levels the answers to increasing productivity, efficiency and cost reduction through modern technologies in the field of voice communication.

Lintel helps enterprises improve service and lower costs by automating and connecting their most common phone calls with our Interactive Voice Response (IVR) or Voice over IP (VOIP) solutions.

Lintel will:

-

Custom design a Telecom Solution

-

Implement the solution at your location

-

Train staff and support 24/7 maintenance
